Speed Up Your USB Connectivity!

8th September 2005 – PROLiNK's PUH204 is a Hi-Speed Universal Serial Bus 2.0 4-port hub with backward compatibility to USB 1.0 and 1.1. It provides an out of the box industry standard that allows connection of up to four USB peripherals or devices to your USB ready PC or Mac.

PROLiNK PUH204 USB2.0 4-Port Hub is designed to provide quick and easy access to the four type "A" downstream ports for connecting USB peripherals, devices or other USB hubs. A single type "B" upstream port connects the PUH204 to the host computer, or another USB hub enabling up to 127 devices to be connected by cascading multiple hubs. Configured directly by the operating system, the PROLiNK PUH204 operates seamlessly with both Microsoft Windows and Apple Macintosh Operating Systems.

It also provides 4 USB ports up to 100mA per port or even up to 500mA (with power adapter). It supports data transfer rate of hi-speed at 480Mbps; Full speed at 12Mbps and low speed at 1.5Mbps, each port creates a bridge between the peripheral and host computer.

In addition, PROLiNK's PUH204 is able to auto detects self-power mode and bus-power mode by power LED. Not only that, it is a truly plug and play automatic system configuration.

Configured directly by the operating system, the PROLiNK PUH204 USB2.0 operates seamlessly with both Microsoft Windows and Apple Macintosh Operating Systems.

PROLiNK PUH204 USB2.0 4-Port Hub will be available at all local and overseas-authorized PROLiNK dealers and distributors around October.
