

JULY 2005 PRODUCT NEWS
FOR IMMEDIATE RELEASE

Experience Optical Convenience At A Great Value!

Singapore July 2005 – FIDA International (S) Pte Ltd introduces the new USB Optical Mouse – PMO135.

Here's a mouse that's brightly colored which makes navigation quick and easy with a wider, clear scroll wheel, and the ergonomic design makes working more comfortable.

The PMO135 comes with a scroll wheel for scrolling and zooming. Move through documents by simply rolling the wheel forward or backward instead of clicking on a scroll bar. Use the wheel to see either close-up or big-picture views without having to use menus or toolbars (in compatible applications). The mouse also features an ergonomic design for comfort. Whether you are left-handed or right-handed, have a large or small hand; the design of the Wheel Mouse Optical feels comfortable.

The PROLiNK PMO135 delivers smooth, precise motion on virtually any surface. Bring new life to your desktop now with PROLiNK's PMO135 USB Optical Mouse now!

- Super high sensitive with 400/600/800 CPI
